TOUCH SCREEN WORKS THROUGH PLASTIC

TRIMACO INSTA-POCKET™

TOUCH SCREEN WORKS THROUGH PLASTIC

Wear protective coveralls all day? Tired of not being able to easily access your phone? No more unzipping your coverall or cutting slits in them to get to your pocket. Introducing the Trimaco Insta-Pocket. This clear plastic pocket easily adheres to the outside of any coverall. Simply pull off the paper backing and stick. There's even a water tight zipper to keep your phone secure. Bonus, the plastic is clear, and your touch screen works without removing your phone. So, go ahead and answer that call or text. Or not.

We've seen workers on the job cutting their suits in order to access their pockets, risking ruining their clothes with paint, dirt, or other contaminants. Also, who really wants to unzip their coverall every time their phone is buzzing? No need with the Trimaco Insta-Pocket. Fits most phones with a bag size of 5.75" by 8.75". This is the product you've been waiting for!
