

# EASYMASK™

## Red Rosin Paper

Made in USA

### Floor Protection During Construction

Trimaco's Red Rosin paper is a versatile, traditional protective covering that also serves as a moisture barrier for flooring and roofing projects. The heavyweight option provides reliable protection for hardwood floors, while the regular weight paper is ideal for use as underlayment in landscaping, plastering and similar applications.

### You Are Covered!

- Protects floors from dirt and minor spills
- Moisture barrier for floors or roofs
