## WHY CIRET LIMITED?

A wise choice is not easy to make in today's market with such an enormous choice of painting and decorating tools available to choose from.

Ciret Ltd manufactures and distributes painting and decorating tool systems across the UK, with our range consisting of preparation products right through to painting applicators and accessories. Our product brands include ROTA (rollers), Kana (brushes), Masq (masking tape) and Prep (preparation tools). This includes a range of jobsite and surface protection products from Trimaco. We also offer a range of wallcovering adhesives under the Beeline brand, offering customers everything they need for a successful decorating project. Our innovative product range sets us apart from the competition along with over 56 years of experience within the industry.

We strive to offer exceptional customer satisfaction with customer service being at the forefront of our business, which is why buying from the Ciret range of ROTA, KANA, Masq and Prep is a very wise choice!

## WHO IS TRIMACO, INC?

With roots back to 1906, Trimaco has founded itself on experience, integrity, innovation and customer support. We export products worldwide and put an emphasis on building a supportive relationship with both our domestic and international customers. We also continually implement state-of-the-art technologies to create high-quality supplies and materials that last. We offer a comprehensive selection of surface, personal and jobsite protection products.

We're committed to our customers; whether it's through our extensive sales force, marketing efforts, purchasing department, or our knowledgeable customer service team.

OTPGDC129	90019	One Tuff Dropcloth	9' x 12' (2.74m x 3.66m)	1/case

**ELIMINATOR® DROP CLOTH** See why the Eliminator is one of the toughest, roughest, most durable dust sheets on the market. Put it to the test and you'll see that there is no way paint or stain will get through. You can stomp on it, do the twist on it, use it on concrete and drag ladders across it...nothing will get through. Professional grade, crack-resistant butyl works well in hot or cold temperatures, never sticking or cracking.
